

# 3 THINGS TO KNOW ABOUT CQ RESEARCHER

## 1 Use the search bar to find the latest reports

Simply type in your topic of interest, like "artificial intelligence," and hit enter. You'll see a list of comprehensive reports, each providing in-depth analysis, expert opinions, and up-to-date statistics.

## 2 Browse "Hot Topic" reports on the home page

These provide concise overviews of important issues, suitable for a quick understanding of the topic. These include key facts, background information, and summaries of the main points.

## 3 Use the bibliography

CQ Researcher incorporates a variety of sources in its reports. They purposefully provide a blend of popular and scholarly sources, making these reports a good starting point in the research process.

# Search Challenges

---

## Beginner

Search "renewable energy" on the homepage. Learn the basics of renewable energy, focusing on how solar and wind power work and their benefits.

## Intermediate

Find the most recent "Hot Topic" report on the healthcare industry.

## Advanced

Find the latest reports on the future of artificial intelligence, focusing on its ethical dilemmas and economic impacts on various industries.
