

# Nursing Current Concepts and Practices Collection

**Find Current Video Content to Support Nursing Training Programs**

The Films On Demand Nursing Current Concepts & Practices Collection is curated to help nursing students excel in their studies, prepare for the NCLEX exam, and support long-term job success in an increasingly complex healthcare system. This collection features titles from trusted producers such as Elsevier, Focus Medica, Motion Masters, University Health Network, Anne Fulton, Ivanhoe Broadcast News, and others.

Use video in class or as assigned classwork to reinforce complex medical techniques outlined in a textbook.

- **Integration tools**—view on our Films On Demand platform, or integrate individual videos into online course pages, LibGuides, or an LMS using unique URLs, embed codes, or LTI integration options
- **Create and share playlists**—use premade clips, full videos, or custom segments
- **Create quizzes** within individual videos and share within a custom class or email list
- All videos have captions, interactive transcripts, citations, translation options, and more
- Limited performance rights in educational settings

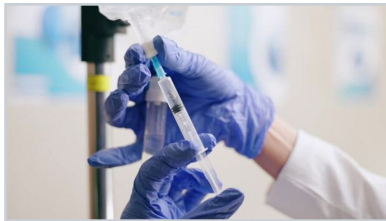

# Nursing Current Concepts and Practices Collection

## CONTENT HIGHLIGHTS

### Motion Masters

#### Math Vitals for Nurses Series (©2024)

This program introduces the use of math in health-care settings, encouraging viewers to practice their skills and not be intimidated.

#### Nursing Professionalism Series (©2023)

Featuring interviews with practicing nurses and illustrative scenarios, this series examines key elements of professionalism in nursing, discussing the code of ethics, cultural competence, and the importance of integrity and honesty, attitude, appearance, teamwork, responsibility, and discipline.

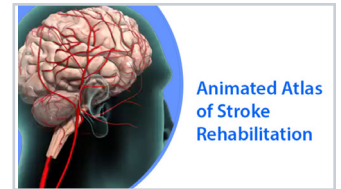

#### A Nurse's Guide to Stress Management Series (©2023)

Featuring interviews with nurses and a hospital chaplain, this series examines stress in the nursing profession and presents suggestions and practical techniques for managing it through learning coping mechanisms and practicing self-care.

### Focus Medica

#### Animated Atlas Series (©2024–25)

60+ new Animated Atlas series titles with 2024–25 copyrights, covering gastroenterology, dermatology, diabetes, neuropathic pain, migraine, stroke rehabilitation, and more.

Animated Atlas of Stroke Rehabilitation

#### Animated Essential Atlas of Anatomy and Physiology (©2023)

Titles from the Animated Essential Atlas of Anatomy and Physiology covering all the major body systems.

### Elsevier

#### Clinical Skills Essentials Collection (©2021)

Help students learn to master the most important nursing skills before they ever set foot in the clinical environment.

From special patient and safety considerations to the equipment and techniques used, these 150+ short videos, each highlighting a specific skill, will leave students with a deep understanding of how to safely and effectively perform each skill.
